

## EDMONTON COAL STANDS THE "STEAMING" TEST

Samples From the Deeper Levels of the Brenton Mine  
Show Good Results

The tests which are being made on the Canadian Northern Railway with Edmonton coal have so far proved very creditable to the domestic product and the indications are that a large contract will be awarded some local company in the near future.

On Saturday last an engine stocked with fuel from the Brenton Mine was sent out to Vermilion, 125 miles distant, pulling a train which carried 700 tons of freight. In making the trip the engine used 7 1/2 tons of coal as against 8 tons used by the Canadian Northern for the same trip under precisely the same conditions. The test showed the coal satisfactory in every way, the sparking feature being hardly noticeable at any stage of the trip.

Tests will be made of the coal from other mines in the vicinity before any contract will be offered by the company, and the coal which shows up best will undoubtedly receive favorable consideration.

In the past there has never been any question in the minds of railroaders or any one else as to the fuel value of Edmonton coal, but the objectionable feature that presented itself was that it sparked badly and presented a constant menace from fire. Against this the Edmonton coal is the cleanest coal to be found on the North American continent, not even barring the hard coal of Pennsylvania.

At the present time the Canadian Northern is importing 800 tons a day of Lehighville coal, and is firing the whole system from here to Winnipeg with it, in preference to the domestic coal or any other.

It is admitted all along the line that the Edmonton coal is superior in every other respect except that it sparks.

This test of the Brenton coal, which is taken from the lowest level yet opened in the Edmonton district, shows that the sparking feature is disappearing as the deeper seams are being reached.

Under these circumstances it is altogether probable that Edmonton will become in the near future the supply point for the Canadian Northern, and eventually for the entire enormous system of railways which is projected to radiate from Edmonton.

### A VALENTINE FOR EDMONTON.

The Daily Ontario, Belleville, February 7: The many friends of Mr. Milton Campbell will be pleased to learn that he is doing well out in Edmonton. A letter received from him by a friend in the city states that the people out there are about ten years behind the time in regard to style.

London, Feb. 14.—One hundred and ninety emigrants who have been afforded a new start in life by Lord Rothschild's emigration scheme have all arrived to their old homes in Tottenham. There are no "wasters" nor "unemployables" among them. Every man's life chart has undergone close scrutiny and investigation. Every one has a situation and a home ready for him whenever he has reached his destination. The arrangement made so far as fare is concerned is that it will be advanced by the Rothschild fund. Each man signs an agreement to repay the amount in monthly instalments amounting to thirty per cent of the wages received by him in Canada.

## REGARDING CREAMERIES

Conference Arranged to Take Place  
in Edmonton on Monday Next

Christian Marker, dairy commissioner for the Dominion Government for Alberta, who is in charge of the creamery business in this province, was a visitor in the city yesterday and the day before, to interview the Provincial Government with regard to the relations that would exist in the future between the creameries established by the Dominion Government and the newly created Provincial authorities.

In an interview with the Bulletin yesterday, Mr. Marker admitted that it was altogether likely that the Provincial Government would take over this branch of the agricultural department's work and incorporate it in with the provincial department's business. With this idea in view a meeting was arranged yesterday by Mr. Marker and deputy Minister of Agriculture of this province to take place in Edmonton on the 20th of February, which will be attended by a dairy commissioner from each of the Government creameries Mr. Marker, Mr. Marker, Minister of Agriculture for the Province and the Deputy Minister of Agriculture for the province and it is not at all unlikely that arrangements will be made at that meeting for the transfer from the Dominion to the province.

In speaking of the matter yesterday Mr. Marker said that the creameries this year would have another very successful report to make. There are twelve creameries operated in Alberta under the Dominion Government management, in the following locations: Calgary, Olds, Innisfail, Tinduff, Red Deer, Blackfalds, Lacombe, Eberts, Parkville, Wetaskiwin, Clover Bar and Beaver Hills. The total production of these twelve creameries for the year 1905 was, approximately, 925,000 pounds and the average price received was 21 1/2 cents a pound for the whole year's output. There were 1201 farmers subscribers to the Dominion creameries among whom the results of the industry were divided. The Government attends to the storing in the cold storage warehouse in Calgary, the marketing and collecting of the money, and it fact carries on the whole industry from producer to consumer.

As an indication of how well the business has been systematized, and now uniformly successful it has become it is interesting to note says Mr. Marker, that in all the shipments that were made last year there was not one single complaint as to quality, although the butter was shipped to all parts of British Columbia, to the Yukon and to China and Japan.

The greatest market at the present time, as it will probably be for all time, for Alberta butter is the mining country of British Columbia and this country regularly takes nearly one half the entire output of the creameries of this province. The next best market is the Yukon, and Japan is the next with China last. None of the Alberta butter is shipped east, for the simple reason that a sufficient market at a higher price can always be found to the west. The Japanese market, while it is growing, is in some respects not an altogether satisfactory one, as the Japs do not look for the highest grades regardless of price, as the British Columbians do, and furthermore the butter has to be especially prepared and packed to stand the ocean voyage and the handling that it necessarily gets while enroute. As the market in the Orient is restricted almost entirely to Europeans there, and as these do not increase in any very great ratio and Australia and the United States are also competitors for this market, the Japanese and Chinese trade is not regarded as being capable of any great development at the present time.

Besides the twelve Government creameries operating in the province there are fifteen creameries operated under private management, which put up and exported last year some 650,000 pounds of butter, bringing the whole creamery production of the province up to a million and a half pounds of butter which brought the farmer of Alberta one third of a million dollars for this industry alone, and when it is considered that it is still in its very infancy it can easily be seen what enormous possibilities there are in store for Alberta for the future.

Mr. Marker says that he feels confident that the dairy business in Alberta is due to become, if not the main, at least one of the leading industries of the province. He points out that it had taken years of hard work and the most careful kind of attention to details to get the business down to its present fine science, but that now that this has been done and the market established it is only a matter of natural growth for it to become an industry of enormous proportions.

## EDMONTON WON AT MOOSE JAW

Game Slower Than at Regina—No  
Game To-Night

Regina, Sask., Feb. 13.—Edmonton defeated Moose Jaw last night, score seven to six. The game was inferior to that of Regina, rougher and more lifing. Edmonton boys were pretty badly played out and Wright and Sibbald were off form. Deaton played a spectacular game and Campbell and Elliott showed up well. Sammie played a good game when called on, Wright's knees bothered him again. Moose Jaw, men who saw the Regina game made a big clearing last night. There was a small crowd at the rink. Scoring was started by Deaton with a long side shot. Then Moose Jaw put in two in quick succession. Each team got another in the next ten minutes. "Wesley" then got a pretty good and later with Deaton and Campbell on the fence. Moose Jaw tallied. Edmonton notched another just before half time, score four all. Campbell got one for Edmonton on resuming play, Moose Jaw tallied twice and then Deaton and Sibbald each ran in pretty ones, score seven to six.

### Line-up—Goal Humeston; point, Barford; rover, Elliott; centre, Campbell; rover, Sibbald, left, Wright; right, Deaton.

Referee—O. B. Bush.  
The boys are getting along fine together and are taking good care of themselves. Very tired after three strenuous hockey matches and traveling. Rest tonight at Brandon. It has been impossible to arrange games with Moosemin or Virden this week. Expected to play Carberry tomorrow night, weather is very cold here, but not disagreeable. Chester Barford will likely be on the line-up tomorrow night. Powers and Johnson are improving.

### TUG RUNS DOWN BARGE

New York, Feb. 14.—At least three lives are believed to have been lost in the East River today when a barge on which three men were asleep was cut in two by a tug-boat which was running blindly in the fog.

### CURLING

No games were played last night, the games posted all going by default. Bellamy vs. Campbell went to Campbell, Moore vs. May went to Moore, and Goode vs. Studholme went to Studholme. The games posted for tonight are Rae vs. Mercer, Kinnaird vs. Galbraith, and Ibbotson vs. Thom. Tomorrow night Bellamy and Moore will play off in the Calgary cup and Second and Jellitt will play off in the semi-finals for the Edmonton Brewing and Malting Co. cup.

### MACCABEE BALL

The masquerade ball under the auspices of the Knights and Ladies of the Maccabees held in Robertson's hall last evening was an unqualified success. Nearly fifty couples were in costume and a most enjoyable evening was spent by the dancers. Clarke's orchestra furnished the music which was enjoyed by all. The master of ceremonies was A. Deslits, and he performed his duties in happy style. At eleven o'clock the judging of costumes took place. The judges were Messrs. T. M. Turnbull, manager of the Bank of Commerce, ex-Mayor Wm. Short, and R. Goldsmith. After the prizes had been awarded, refreshments were served and the dancing continued until the early hours. Following is the list of prizes awarded:—

Best dancer, French minuet, Mr. and Mrs. Grant McAlpine. Mrs. McAlpine dressed as our Lady of the Snows, and Mr. McAlpine dressed as Prince Charlie. Lady's prize, satin slippers, gentleman's prize, stick pin.  
Best waltzer, lady, Miss McLeod, as Dawn. Pair house slippers, Gentleman, Mr. Wagar, evening dress, neckscarf.

## IMMIGRATION ASSOCIATION WILL CONTINUE WORK

Third Annual Meeting of W. C. I. A. Held in Winnipeg—  
Officers Elected and Plans Prepared

Winnipeg, Feb. 14.—Fifty representative men of Western Canada, with a small sprinkling from St. Paul, Minneapolis and Chicago of men largely interested in the development of the west met in the board room of the grain exchange this morning for the third annual meeting of the Western Canadian Immigration Association. Great unanimity of opinion was expressed that the work of the association had accomplished so much in the past for the development of Western Canada that it was highly desirable that the work should be continued for the further period of two years.

Officers for 1906 were elected as follows: President—D. W. Bole, Winnipeg; first and second vice-presidents—W. Georgeson and Captain Carruthers, Winnipeg; third vice—Grant Robertson, St. Paul; treasurer—W. A. MacHaffie, Winnipeg; secretary—T. M. Knapp; executive council—A. D. McKee, W. J. Christie, A. L. Johnson, F. M. March, Winnipeg; F. F. Lynch, St. Paul; J. H. Haslam, Regina; district vice-presidents who are to act with the executive are—C. W. Rowley of Calgary, A. E. Doak of Prince Albert, O. A. Robertson of St. Paul, J. A. Campbell of Dauphin, F. T. Fisher of Edmonton, G. H. Shaw and F. T. Griffin of Winnipeg, H. C. Beattie of Saskatoon, William Trant of Regina, Hugh McKellar of Moose Jaw.

At two o'clock the meeting adjourned to the Mariaggi for lunch and a discussion as to the best means of interesting the outside world in the advantages and resources of Western Canada was continued round the lunch table. All the western members and many Winnipeggers took part in the discussion which lasted until six o'clock. The utmost enthusiasm as to the work of the association prevailed throughout the proceedings, and all members attending will go home with enlarged ideas as to the possibilities of getting men and capital into Western Canada.

Superintendent Brown, of the Canadian Northern, is a passenger on the C. N. R. express which is due to arrive this evening. He is accompanied on the trip by Mr. Mortimer, a New York financial man, who is reported to be an agent of the Morgan syndicate. During the past two weeks they have made a complete inspection of the Canadian Northern, having gone over the Prince Albert and other branches, as well as over the main line. The object of the inspection is not given out but it is a good guess to say that the next allotment of Canadian Northern bonds will be offered in New York. It will be remembered that of the last allotment which was offered in London something like eighty per cent came back on the underwriters' hands, owing, it is said, to Canadian Pacific influence on the London money market.

**YORK COUNTY****LOAN AFFAIRS**

Deputy Attorney General Commu-  
icates With Liquidators of  
York County Loan

Deputy Attorney General Sidney B. Woods, stated in an interview with the Bulletin yesterday that he had taken up the matter of the interests of Alberta shareholders in the York County Loan, and had already had considerable correspondence with Mr. Home Smith of the National Trust, of Toronto, liquidators, as to the protection of the interests of Albertans. Acting on the request of some 350 Alberta shareholders in the company, most of whom are in Calgary, the deputy attorney general wrote on the 7th of January to the National Trust to ask how the interests of the Alberta shareholders were being looked after and if it would be judicious to appoint a permanent representative for Alberta to be present during the winding up in Toronto.

The letter Mr. Woods received was to the effect that the interests of the shareholders were being properly looked after and that they were classified according to classes as to priority and not according to provincial or geographical location, under which circumstances there would be no advantage in sending an Alberta representative.

The letter received by Mr. Woods states that there are no less than 114,000 shareholders on the books of the York County Loan, and that as they are representatives of no less than seven different classes of stocks, having different priorities and different claims to security, it is going to be a long job to get the matter straightened out, but the liquidators hope to have the whole thing wound up in a pretty good shape inside of six months. At the present time there are no less than eighty clerks working in the office day and night.

The principal resource of the York County is in Toronto suburban real estate and the liquidators, in their letter to the deputy attorney general, stated that they had hopes of realizing handsomely on this property, as there was a chance of the street railway being built into that part of the city this summer. At any rate, the liquidators say, no radical action will be taken without consulting the deputy attorney general of Alberta, who will take the precaution, through the press to keep Alberta stockholders informed on what is going on.

**THE STORY OF THE BRIDGE.**

(Margaret Ridgley Scott, in Life)

Lars Persena of Clusium,  
By the Grand Slam he swore  
That he and haughty Tarquin  
Could make the best bridge  
score.

By the Grand Slam he swore it,  
And sent a herald forth  
To challenge two great players  
From out of the South and  
North.

Unto the Rock of Tarpeian  
These rival heroes came—  
Horatius and Herminius—  
Both adepts at the game.  
Stern as in camp or senate  
These toga'd Romans played,  
While cheered the dauntless popu-  
lace,  
And pallid augurs prayed.

The dawn was slowly gilding  
Imperial Caesar's "home,"  
As they played the final rubber.  
Amid the cheers of Rome,  
Each score was eight and twenty,  
Horatius took the pack,  
And dealt him four kings, and  
four queens,  
Four aces and one jack.

"No trumps," the echoes sounded  
Beyond the Apian Way,  
While Tarquin and Lars Per-  
sena

Seemed too depressed to play  
What need for invocation  
To Father Tiber then?  
A Roman's skill in dealing  
cards  
Had outdone two brave men.

And often at the Forum,  
Beneath the eagle's gold,  
And sometimes at the circus,  
Where press the townfolk bold,  
Mid listening guards and trib-  
unes  
Still is the story told,  
How keen Horatius won at  
bridge  
In the brave days of old.

**NOTICE TO CONTRACTORS**

SEALED TENDERS addressed to the undersigned, marked on the envelope, "Tenders for Construction," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until twelve o'clock noon on Monday, the 12th day of March, 1906, for the work required for the construction, in accordance with the plans, profiles and specifications of said Commissioners, for the following sections of the Transcontinental Railway, the said work to be completed on or before the first day of December, 1907, viz:

(1) District "F". From a point designated on the plans of the said Commissioners at or near the City of Winnipeg, to a point known as Peninsula Crossing, near the Junction point of the Fort William branch of the Grand Trunk Pacific Railway, a distance of about 245 miles.

(2) District "B". From a point designated on the plans of the said Commissioners, at the north end of the Quebec Bridge and Railway Company's bridge in the vicinity of the City of Quebec, to a point near La Tuque, a distance of about 150 miles.

(3) A steel viaduct about 3,600 feet long across the Cap Rouge Valley, in said District "B" in the vicinity of the City of Quebec, the work to be performed in accordance with the General Specifications of the Commissioners of the Transcontinental Railway, and the General Specifications for steel bridges and viaducts of the Department of Railways and Canals of Canada, 1905.

Plans, profiles and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa, also in the office of the District Engineer at Kenora, Ontario, for the section of District "B", and for the section of District "F" in the office of the District Engineer at Quebec.

Persons tendering are notified that tenders will not be considered unless made in duplicate and on the printed forms supplied by the Commissioners.

Separate tenders must be submitted for the work in each District. Tenders shall not be in any way entitled to be considered, or any other information given by any person on behalf of the Commissioners, and before submitting any tender, bidders should make a careful examination of the plans, profiles, drawings and specifications, and read the forms to be executed and fully inform themselves as to the quantity and quality of materials and character of workmanship required; and are understood to accept and agree to be bound by the terms and conditions contained in the form of contract, specifications, etc., annexed to the form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the Commissioners of the Transcontinental Railway for the sum of four hundred thousand dollars (\$400,000) in said District "F", and two hundred and twenty-five thousand dollars (\$225,000) for District "B", and thirty-five thousand dollars (\$35,000) for steel viaduct in said District "B". Any person whose tender is accepted, shall, within ten days after the acceptance thereof, furnish the security required by the Commissioners for due and faithful performance of the contract according to its terms, sign the contract, specifications and other documents required to be signed by said Commissioners; and in any case of refusal or failure on the part of the party whose tender is accepted to complete and execute a contract with the said Commissioners and to furnish the required security within ten days after the acceptance of the tender, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

Attention is called to the following clauses in the form of contract: "All mechanics, laborers or other persons who perform labour for the purposes of the construction of the works hereby contracted for shall be paid such wages as are generally accepted as current for competent workmen in the District in which the work is being performed, and, if there is no current rate in such district, then a fair and reasonable rate; and, in the event of a dispute arising as to what is the current or a fair and reasonable rate, it shall be determined by the Commissioners, whose decision shall be final."

"This agreement is subject to the regulations now in force, or which may at any time hereafter be in force during the construction of the works hereby contracted for, made under the authority of the Department of Labour, and which are or shall be applicable to such works."

"The contractor shall in connection with the whole of the said work, as far as practicable, use only material, machinery, plant, supplies and rolling stock manufactured or produced in Canada, provided the same can be obtained as cheaply and upon as good terms in Canada as elsewhere, having regard to quality and price."

The contractor shall conform to the Fire Regulations adopted by the Commissioners, and also to the Laws and Regulations respecting fires in the different provinces wherein the work is being performed.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN, Secretary.

## THE DEMAND OF THE MANUFACTURERS

The text of the document presented to the tariff commission by the Canadian Manufacturers Association has been published and affords some interesting reading. It comprises a twelve page pamphlet in which the usual high tariff arguments are reviewed with rather less than the usual ability and leaves the general impression that so far from making good the far-fetched claims of the manufacturers it affords no evidence that these gentlemen would be able to make a strong presentation of a really good case.

The pamphlet opens with a general survey of the Dominion and its affairs during the course of which we are informed that the welfare of the manufacturers "is dependent entirely upon the general welfare and prosperity of the whole Dominion." The statement is unquestionably true but as the introduction of an attempt to prove that the "general welfare and prosperity of the whole Dominion" is dependent on the doings and dividends of the manufacturers, it strikes us as a somewhat unfortunate admission.

The succeeding paragraph depicting the generally prosperous condition of Canadian Manufacturing industries appears equally misplaced in a paper whose purpose is to show the dire necessity for further protection of those industries. It reads:

"The conditions existing in Canadian manufacturing industries at the present time are, generally speaking, prosperous. True, a number of our industries are suffering from the unequal competition of foreign manufacturers, others are not making the headway that they should in new lines of manufacturing, and a number of others are depressed owing to competition with British firms under the preferential tariff; but generally speaking, the industries are thriving and expanding, and the Canadian people are showing pride in the production of their own factories and workshops, and must be looked upon with respect by the Government and all others who are deeply interested in the development of the country."

The only conclusion the Canadian manufacturers can draw is that this happy condition of affairs "indicates that a thorough revision of our tariff at the present time is not only wise, but necessary." Canadians who are not manufacturers will be pardoned for taking it as indicating that the trend of such revision should be in the same direction as the tariff policy under which those happy conditions have been produced.

But the optimism of the manufacturers fades when they recollect the annual imports. In contemplation of the created things which have been brought into Canada and sold here joyousness departs and the pamphleters are appalled at the prospect if prompt measures be not taken to "defend us from foreign competition." That the increased imports indicate the increased purchasing power of our people, that the volume of such increase indicates the value of the low tariff to the Canadian purchaser and what proportion of such increase consisted of machinery imported by Canadian manufacturers to double or quadruple the capacity of their factories we are not informed.

We are assured that "the Canadian workingman, if his products were no longer protected, would be obliged in most cases to abandon Canadian industry, and seek remunerative employment elsewhere;" but under the tariff of the Canadian manufacturers, the young manhood of the Maritime Provinces devoted its energies to the development of the manufacturing industries of the New England States, while the young men of Ontario marched in endless procession across the border to the lumber woods of Michigan, the homesteads of Dakota, the factories of Chicago, St. Louis and Minneapolis; that under the low tariff policy of the present Government, John came marching home again, bringing thousands of American-born workmen with him; that the boys of Canada now find ample remunerative employment in the factories of their native land; that even these changes do not meet the demand for labor produced by the industrial development and that the Canadian industry is really remarkable, being that it is visible only during high tariff campaigns. In the present instance about seven of the twelve pages in the pamphlet are occupied by representations, statistics, arguments, comparisons, allusions and other varieties of linguistic feats designed to persuade the commissioners that the

farmer is altogether mistaken in his tariff notions, that he is in a benighted condition, does not properly understand what ails him and that the Government should adopt the remedy proposed for his relief by the more enlightened manufacturers. When, how, or by whom the manufacturers were delegated spokesmen of the Canadian farmer, with authority to disregard or discountenance the representations of the farmer themselves is not revealed.

The farmer doubtless has troubles of his own, probably as many and as serious as those of any other class in Canada, but why he should be an inferior judge of the remedy needed is not quite clear that the remedy proposed by the manufacturers is not the proper one quite evident from the contention that our farmers "Are exposed to keen American competition in our own markets as United States farm products are allowed to come into Canada on payment of comparatively low duties." Now if there is a country on earth where the tariff ideal of the Canadian manufacturer has been and is in operation and where the fruits of such policy are manifest that country is the United States. If therefore a prospective tariff on foreign manufactures created a "home market" which ensures a brisk demand and good prices for farm products, why is the American farmer prepared to pay even "comparatively low duties" for the privilege of selling farm products in an essentially farming country? If it be true that under these circumstances "We import vast quantities of farm products from the United States that could be grown in Canada 'the home market' theory has apparently failed to accomplish in that country what the manufacturers would have us expect from it in Canada."

The request of the manufacturers as was to be supposed, does not err on the side of modesty. It is well expressed in the words of the pamphlet:

"We desire reasonable competition with the industries of Great Britain and the other portions of the Empire, that is, we desire a tariff against those countries which will equalize the disadvantages under which we work in the higher cost for labor, capital, machinery, etc.—a tariff which will enable him to at least 'compete on equal terms' in his home market with the manufacturers of Great Britain." Toward all other countries the motto should be "No admission."

Whatever weakness may be found in the argument by which that purpose is supported there is no mistaking the purpose itself. The entire Canadian market regardless of the cost to others is the modest demand of the Canadian manufacturer.

## THE CITY HAS NO AUDITOR

The old, old question of the special auditor occupied a large part of the aldermen's time at the council meeting. Tuesday evening and this time an entirely new feature was developed to the extent that the city has no auditor at all. The information was brought out by a motion by Alderman Bellamy, to the effect that the report of the special auditor be adopted. Commissioner Kinnaird said that a motion such as that would make things very bad in his office as there was some suggestion in the special auditor's report which even the special auditor himself did not consider could be adopted instantly. Alderman Mays suggested that if there were suggestions and recommendations in the auditor's report that the commissioner found impracticable that Commissioner Kinnaird and the present auditor should look into the matter and decide what those were and bring them to the attention of the city council at the earliest possible moment. Commissioner Kinnaird said that was out of the question because they at present had no auditor. He explained that Mr. Mountfield had been employed last year as auditor, but that with the close of the year he evidently took it for granted that his term of office had expired and had not since been near the city hall. The work of auditing the accounts of 1905, which would be expected to come in as a part of his duties had not been done and had not been started and even the month's audit of December had not been attended to.

At the first meeting in the present year, the aldermen in order to comply with the charter, and at the same time not employ an auditor until the Tomlinson-Neff controversy had been settled, passed a resolution to the effect that Mr. Mountfield should be continued in office. As Mr. Mountfield had never signified his willingness to continue in office and as it takes two to make a bargain the city has therefore been without an auditor since the first of the year. In the meantime the city's work is being held up and the Neff business is not disposed of.

On a double headed motion by Alderman Griesbach the council decided to accept the report of the special auditor, Mr. Neff, and the commissioners were instructed to write Mr. Mountfield and inform him that the council would thank him to complete the work of auditing the books for 1905.

To fill the vacancy in the Municipal staff, and find an auditor for the current year, the commissioners were instructed to insert an ad in the local papers calling for applications at \$400 a year.

Mr. Griesbach then gave his account of his meeting with the G.P.R. officials when in Calgary which completed the business of the evening, except for the passing of the accounts and other minor routine matters.

EASY GAME**Intermediates Got Away With the  
Wetaskiwin Boys

Red Deer, Alta., Feb. 13.—The game last night between the Red Deer and Wetaskiwin intermediate hockey teams was somewhat of a fiasco. At times it was decidedly humorous, but it was certainly too one-sided to be interesting. The game is easily described. In fact the score is nearly all that is necessary.

The Red Deer defence had almost nothing to do, and the goalkeeper was obliged to skate rings around the centre ice in order to keep warm.

D. R. Robinson, A. Price and R. Gossett of Calgary, are registered at the Alberta hotel.

Two fine curling cups are on show in Jackson's jewelry store. They are both the property of the Red Deer curling club and should certainly excite the avarice of the local curlers and make some very hot matches this winter. The larger cup of the two is presented by the Red Deer curling club and is to be competed for annually amongst the local rinks. It is a cup standing probably 14 to 18 inches high and of a very pretty design. The smaller, though possibly the handsomest cup of the two was presented to the club by the president, Mr. A. Scott, manager of the Bank of Commerce here and is to be played for annually in single competition amongst the members of the club. The cups will certainly put fresh enthusiasm into the curling game in Red Deer.

W. J. Pabst of Moose Jaw, and J. E. Schiller, of Berlin, are guests at the Alberta.  
R. C. Brumpton, W. B. Findlay, A. Slade, Thos. Bradshaw, and A. T. Stephenson, who have been attending the Calgary bonspiel, arrived home on yesterday's noon train.

About fifty young people went out to the Industrial school last night in response to invitations issued by the principal Mr. E. P. Rice, and from all accounts, spent an enjoyable evening skating on the river. After the skating was over everyone was invited into the school house for refreshments, and the fine drive back along the river brought a most charming evening to a close.

Chas. P. Contradine of Grand Forks is in town.

**WINNIPEG BONSPIEL**

Winnipeg, Feb. 14.—The first of the finals in the bonspiel was played yesterday at the Granite rink when the cup presented by Sir Daniel McMillan as consolation prize was won by A. E. Young's rink from Saskatoon. Not a city rink figured in this competition. The Saskatoon rink, consisting of W. McIntosh lead, J. Graham, second, A. Rowat, third, and A. E. Young, skip, take possession of the cup.

The other competitions are nearly finished and another day will see the completion of the bonspiel. Rochon of the Granites was the first rink to reach the finals in any of the open events. Rochon got into the finals of the Dingwall trophy yesterday. He first beat Rule of Collingwood and then beat Hicks of Napinka in the semi-finals. Striton of Prince Albert is in the finals of the Dingwall competition waiting for the winner of the Keiby-Brader game to get into the finals.

The Royal Canadian, the other district event has still three games to be played. Strickland and Eagle have yet to decide which will get into the jewelry class. The winner will play Brader to go into the finals with Whalen of Fort William, who beat Bannister of Carberry in the semi-finals. There are four prizes in this event so that all rinks in the semi-finals will get something.

Play down for the Dolge International Cup has reached the finals. Hunter of Hartney, Nicholas, of the Civic club, and Stark of Prince Albert are in the semi-finals. Flaville, of Lindsay, and Kitchen of Souris, have yet to play off to decide the other member of the four. There are only two prizes in this event so that only two rinks in the finals will carry away a keepsake.

### LAC STE. ANNE.

(Correspondence)

The past week has been a very busy one for our hotel and stores. Daily parties of land seekers arrive on their way to the rich valleys of the Pembina and the Paddle. All speak highly of districts, and find no trouble in securing suitable locations. A large percentage of these land-seekers are Americans of the right kind who are broad-minded and progressive and know a good country when they see it. At the head of one of these parties is Mr. H. Austin, late of Iowa, whose letters to Iowa papers respecting Alberta, its climate, its desirability as a field for home-seekers, its liberal land law and its prospects, have set hundreds of neighbors at home to thinking, with the result that many are coming to strengthen our splendid population with their enterprise, their thrift and their intelligence. This party was guided by R. O. Black, who knows these districts well.

There was also a party from Strathcona and two large contingents from St. Albert under the guidance of Messrs. Maloney and Flynn, all of whom have found satisfactory homesteads on the Paddle, near to the projected lines of our great transcontinental railway.

A party of coal hunters, of which H. A. Cowan was leader, was taken to the Pembina by L. C. Ward.

Mr. Ward has moved to Lac Ste. Anne and will make this point his head quarters as a land guide.

D. H. Jock has secured the contract for transporting forty tons of supplies from Lac Ste. Anne to Jasper Valley for the Grand Trunk Pacific. He will commence moving the goods at once, and has employed men and ponies for the purpose.

Many packs of furs arrived from the West recently, the principal buyers here being the Hudson's Bay company, Henderson & Wellington Lee.

S. M. P. Michaelson has returned to his ranch on the Paddle.

We are sorry to report the illness of Mrs. Rochford. She is in the General Hospital at Edmonton.

Roufret's survey party from the Pembina passed through on Saturday.

On Sunday C. E. Baugault, D.L.S., with a large party who are operating on the Paddle, were guests at Hotel Ste. Anne. He reports that on both sides of the base-line is a large district of rich open country comprising many townships, and predicts that should the present trail be made passable as a wagon road hundreds of people will flock there at once.

Mitchell's gang of surveyors, nineteen in number, are now running a Grand Trunk line through this locality.

Father Lacombe who spent the past summer here assisting Father Lizee of the Roman Catholic Mission, has been transferred to River Que Barre. His place here has been filled by the appointment of Father Marchand.

**CALGARY DOCTOR IN TROUBLE**  
Calgary, Feb. 13.—Dr. Aull, a prominent Calgary physician, is under arrest charged with performing an abortion on Ella Langley, of Clareholm. He was taken to Clareholm today and released on bail. Aull's friends stoutly maintain that there is no case against him, as will be shown when the evidence is produced.

## SPORTS

## HOCKEY

A series of games between the intermediate Thistles and a team from the Alberta College has been arranged, to be played for the set of silver medals donated by Dr. Reid. The series consists of three games, the winners of two out of the three capturing the medals. The first game will be played to-night in the Thistle rink, and those who attend may be sure of witnessing a close contest. The teams as they will line-up are very evenly matched. Chester Banford of the Intermediates, is away with the seniors, but Gordon Banford will substitute. The college line-up will be: Goal, Grady; point, Kennedy; cover point, York; rover, Jarrett; centre, Walker; right, Bush; left, Dobson. The second game in this series will be played on Monday evening, and if necessary the third game will be played next Thursday evening. The college team will put up a strong fight for the decorations, and although the Intermediates have lost no games this season, the students will give them about as hard a run as they ever had.

## THE TARIFF QUESTION

Editor of the Bulletin,  
Dear Sir:—  
I was much struck with the excellent article in one of your recent issues of the tariff question from the farmers' point of view, by Mr. Hector Noel. It seems to me it is the only solution of the problem and every farmer should study to do his best to carry it out, namely, "Pass his taxes along."  
The farmer—the first producer of all that supports the human race—has to have, as Mr. Noel says, all the taxes of his benefitted fellow-creatures pushed upon him, and he to bear them seems beyond all fairness, yet for years he has suffered it because he has not had the strength of unity.

Agricultural papers advise bigger crops, choicer seeds! Coasting crafts as the Provincial Farmers Association, Agricultural Societies and kindred organizations are doing good work, particularly when they have our motto, "Equitable prices for all products and controlled marketing," and every farmer should join one if possible; but, though they may help him to get a better market or lower rate and improved legislation, they cannot stay the speculator and middleman from appropriating these benefits, or help the farmer to "pass his taxes along." This requires an ocean-going barque, as International society, "The Equity Society of the World," The Canadian, the American, the English, the French, the Australian, (this latter country even now, I hear, is benefited by its Equity Society) etc., etc. As Mr. Noel says, "This society can do this; it was built for it!"

Is it not a fact that if a number of farmers in every province in the Dominion, in England, and other colonial and foreign countries were agreed to stand together and keep in touch, we could name our prices and get them with controlled marketing, so that if we in Alberta found special taxes or other expenses occur in our business we could raise the price on our product. Coasting vessels are necessary and most useful in their way, but how should we be off if we had no mighty liners or ocean going vessels. The latter could supply the place of the former, but not vice versa.

Let every farmer, therefore, help forward this society, which is trying to help him.

A thousand or more farmers in Alberta are enrolled with us; 160,000 in the States are ready at our call to help us. With a like number in the other provinces of the Dominion, in England, in France, etc., shall we not be able to take our proper place in the world, and, like the manufacturer, merchants, etc., be able to add to one and all our produce, such an amount as will enable us to pass the taxes along?

Yours truly,  
FRANCIS C. CLARE,  
Secretary Belmont local union of the Canadian Society of Equity.

## FARMERS' MARKET

With the exception of wheat the Edmonton market closed this week decidedly stronger and firm in tone. Oats are going up steadily. Deliveries were brisker on the farmers' market today, but heretofore there has been very little oats coming in.  
Wheat is down two cents.  
Hay is going up, due purely to short delivery and local demand.  
Coal is steady and deliveries good. The following are the prices quoted on the farmers' market—  
Oats, milling, 27c to 28c.  
Feed 25 to 27c.  
Hay slough 27 to 28c.  
Upland, 29 to 31c.  
Timothy, 31 to 35c.  
Coal, 35.50.  
The Alberta Milling Co. quotes wheat—  
No. 1, Northern 63c.  
No. 2, Northern 60c.  
No. 3, Northern 55c.

In the visitor's competition they carried off first, four antique grandfathers clocks, and in the Calgary Brewing and Malting Co. competition, secured second place, winning four valises. The rink is composed of Messrs. H. Ketchen, E. H. Simpson, H. Pearson and H. Campbell as skip.

—R. Teller, Methodist preacher in the Edison and Pembina district, fifty miles north of Edmonton, was brought into the public hospital last night with a fractured leg. Full particulars of the accident are not known. Mr. Teller is an elderly gentleman, and as far as can be learned from him, the accident happened while he was riding on his horse on Tuesday. The horse stumbled and fell, and Mr. Teller was dragged some distance with his leg underneath the horse. He finally managed to extricate himself and make his way to a neighbor's house, where he was cared for and was driven into the city by a boy last night. Dr. Nichols is attending him at the hospital and set the broken limb this morning, and the injured man is doing very well.

—Charles Lewis Shaw, one of the brightest newspaper writers in Canada and a literature of recognized ability, is a visitor in the city, staying at the Alberta. Mr. Shaw is on his honeymoon, having recently contracted matrimony in Winnipeg, and is visiting the scenes of his early endeavors. Twenty years ago he was a lawyer in Edmonton, being a partner of Antonio Prince, of the firm of Shaw & Prince, well known old-timers. Since that time Mr. Shaw has travelled Canada from coast to coast, has sat on the reporter's bench in the Ottawa house and has acted as war correspondent in the African campaign, finding sufficient leisure in the meantime to write some magazine articles that were easily worth while. He is renewing old acquaintances in the city today.

—Miss Annie Snyder, who has been spending the past three years touring the Canadian North West and is well known as a dramatic reader and entertainer will shortly start on an extended lecture tour through Ontario and the Southern States. The subjects of her lectures being "The Land of the Golden Grain." Miss Snyder has also compiled a very handsome booklet containing over one hundred half-tone views, including a number of agricultural and mining scenes throughout the North West. The views are interspersed with a great deal of information concerning the country given in a concise and interesting form. It is Miss Snyder's intention to have this book widely circulated in the districts in which she delivers her lecture. The Canadian Engraving and Publishing Co. of Winnipeg, have the work in hand and are publishing 10,000 copies.
